

The Moon Keeper

ACTIVITY KIT
by Zosienka

Whenever you see the moon from your window, make a sketch on one of Emile's pieces of paper below. When you have 9 drawings you will see if the moon is getting bigger or smaller

There are many things you might need for looking after the moon. Imagine you are the Moon Keeper. What tools would you need?

Emile wants to know if the moon looks the same in another part of the world.
Who would you call to compare moons with?
